UNIDO WEBINAR SERIES

QUALITY & STANDARDS

IN THE FIGHT AGAINST COVID-19

Dear colleague,

On behalf of the United Nations Industrial Development Organization (UNIDO), you are cordially invited to join an e-panel on:

Standards & Testing in the Fight Against COVID-19

The e-panel will provide orientation and knowledge sharing on what Quality Infrastructure (QI) institutions are doing or can do to mitigate the negative impacts of the COVID-19 both during and after the crisis, and the ways in which QI needs to adapt in both these circumstances.

The COVID-19 pandemic is confronting each of us with unprecedented challenges. Every country is feeling its impact on their healthcare systems, the economy and society as a whole. Within the framework of the Sustainable Development Goals (SDGs) and against the backdrop of promoting inclusive and sustainable industrial development (ISID), quality infrastructure has and will continue to play a significant role in the fight against the global pandemic.

This is the second of a webinar series on quality and standards in the fight against COVID-19.

Date & Time: **Friday 17th April 2020, 14:30 to 16:00**

Moderator:
Dr. Elsie Meintjies, CTA, GQSP-South Africa, UNIDO

Speakers:
Mr. Bernardo Calzadilla Sarmiento, Director, TII, UNIDO
Mr. Xiao Jianhua, Chair, IAF
Mr. Vladimir Daigele, Programme Officer, ITU
Mr. Andy Henson, Director, International Liaison and Communication Department, BIPM
Ms. Merih Malmqvist Nilsson, Chair, INetQI
Mr. Sean MacCurtain, Director of Conformity Assessment, ISO
